SUBJECT INDEX TO VOLUME 31, 1985

[A]

acetic acid bacteria 475
Acetobacter polyoxogenes sp. nov. 475
acid mine drainage 371
acid mine water 17
acid streamers 17, 371
adriamycin biosynthesis 231
agar 297, 305
Anabaena cylindrica 171
anaerobic strains of streptococci 255
anion exchange resin 147
antibiotic susceptibility 115
antisera against the cytoplasmic extract of *T. beigelii* 111
auxotrophic markers 231

[B]

Bacillus licheniformis 323
Bacillus subtilis bacteriophage 429
Bacillus subtilis, sporulation gene of 93
bacterial adsorption 147
bacterial taxonomy 475
bacteriophages M2 and Nf 429
Bacteroides spp. 115
Ballistospore-forming yeasts on rice plant 457
biofilm 177
Bullera oryzae sp. nov. 457

[C]

Cadmium uptake in *Anacystis* 39
Candida famata var. *flareri* nov. comb. 71
Candida haemulonii 507
Candida maltosa 267
Candida musae 507
Candida naganishii nov. sp. 71
Candida saitoana nov. nom. 71
Candida tsuchiyae sp. nov. 507
carbon monoxide production 285
catalase 435
cDNA infection 551
cell cycle 87
cell-free translation 267
cell length 87
cellular carbohydrate composition of basidiomycetous yeasts 519
cellular fatty acid 381
chemotaxonomy of basidiomycetous yeasts 519
chemotaxonomy of *Debaryomyces hansenii* 49
chromosome map 231
cloning (pectate lyase gene) 293
copper-toxicity, cyanobacteria, *Nostoc linckia*, Acetylene reduction 165
Coprinus cinereus 339
CO-producing bacteria 285
CO production by *Proteus* and *Morganella* 285
Cu^{2+} transport in *Anacystis nidulans* 277
cyclic AMP-dependent phosphorylation 339
cycloheximide 267

[D]

D-cycloserine 323
Debaryomyces hansenii var. *fabryi* nov. comb. 71
Debaryomyces nepalensis 49
Desulfovibrio 347
diazonium blue B color test of basidiomycetous yeasts 519
DNA base composition 243
DNA base composition of basidiomycetous yeasts 519
DNA-DNA homologies 243
DNA-DNA hybridization 49

[E]

effect of AICA on mycelial growth in *Streptomyces azureus* 193
effect of AICA on thiostrepton production in *Streptomyces azureus* 193
effect of heme on CO production 285
electrophoresis 313
enzyme patterns 313
Erwinia carotovora 293, 573
Escherichia coli 147
Escherichia coli antagonism 135
expression vector, pEBR-15 and pEBT-5 .. 93

SUBJECT INDEX TO VOLUME 31, 1985

effect of AICA on mycelial growth in *Streptomyces azureus* 193
effect of AICA on thiostrepton production in *Streptomyces azureus* 193
effect of heme on CO production 285
electrophoresis 313
enzyme patterns 313
Erwinia carotovora 293, 573
Escherichia coli 147
Escherichia coli antagonism 135
expression vector, pEBR-15 and pEBT-5 .. 93

[F]

fat yeast Lipomyces starkeyi 29
fish intestinal bacteria 115
flow channel reactor 177
flow microcalorimetry 221

[G]

genetic recombination in *Streptomyces azureus* 187
glucoamylase 399
glutaminase 171
glutamine transaminase 171
growth-physiological factors..... 29
growth-temperature of bacterial cell dependent change in phage SPO1 adsorption 569

[H]

high-acidity vinegar 475
high fructose syrup 305
high production of thiostrepton by recombinants 187
hydrogenase 347
hydrogen peroxide 435

[I]

immobilization 297, 305
immobilized yeast kinetics 221
immunological cross-reaction 347
immunological studies on *T. beigelii* 111
incompatibility factor 339
inducible resistance 267
inhibition of phage SPO1 adsorption by concanavalin A 569
intestinal microflora of piglets 135
inulinase.....297
iron-oxidizing bacteria..... 17

[J]

Jerusalem artichoke 305

[K]

kinetics 221
Kluyveromyces marxianus 297, 305

[L]

labile proteins, synthesis during sporulation 359
lipid content-physiological factors 29
lipomyces 313
Lipomyces lipofer 491

[M]

machete-resistant *A. brasilense* strains.... 1
methanol-utilizing bacteria 243
Micrococcus luteus.....435
Mn-resistant mutants of *A. brasilense* 211
mutation 323
myxozyma 313

[N]

N-glycosylation.....399
Nostoc muscorum, Nitrogen-fixation, Heavymetal toxicity regulation 329

[O]

obligate anaerobes 115
oligopeptidase of anaerobic cocci 255
osmophilic yeast 411
oxidation of secondary alcohol 125

[P]

pectate lyase 573
penicillin acylases,-α-aminobenzylpenicillin nomographs 107
pentachlorophenol (PCP) 197
peptococci 255
peptostreptococci 255
percolated soil.....197
pesticide 197
phage SPO1-independence of initial attachment to the cell from α-D-glucosylated teichoic acid 569
phenolic wastewater 177
Planococcus kocurii sp. nov. 441
PMR spectra of mannans 49
Potato spindle tuber viroid 551
productivity enhancement 323
promoter of *Erwinia carotovora* 573
Protomonas extorquens 381
protoplast fusion in *Streptomyses azureus* 187
putrescine oxidase.....435
pyritic mine.....17, 371

[Q]

Quinone systems.....381

[R]

Rhodospirillaceae 381

ribosome modification 267

[S]

Saccharomyces cerevisiae 221, 359
Saccharomyces diastaticus 399
Schizosaccharomyces pombe 87
selective enrichment 135
serological characteristics 49
signal peptide of *Erwinia carotovora* 573
soil bacterial flora 197
somatic antigen.....347
Sporobolomyces subbrunneus sp. nov.....457
sporulation 231
sporulation gene product, purification of...93
sporulation in *Saccharomyces cerevisiae* ..359
stimulation of thiostrepton production by AICA 193
stimulation of thiostrepton production by thiazole moiety of thiamine 193
Streptomyces peucetius var. *caesius* 231
sugar-tolerant yeast 411
Sulfite reductase 347

[T]

taxonomy of *Debaryomyces hansenii* 71
taxonomy of *Rhodospirillaceae*.....381
thermostable amylase 323
thiostrepton production by protoplast fusants 187
tilapia intestine 115
tolerance to acetic acid 475
total organic carbon 177
Trichosporon beigelii 111
trickle bed reactor 177

[U]

ubiquinone systems of basidiomycetous yeasts 519

[V]

viroid replication 551

[W]

Waltomyces gen. nov. 491
Waltomyces lipofer comb. nov. 491

[Y]

yeast from high-sugar food.....411
yeast taxonomy.....313

[Z]

Zygosaccharomyces rouxii 411

CONTENTS

Volume 31

Number 1, February 1985

R. Rai: Studies on nitrogen fixation by machete-resistant mutant strains of *Azospirillum brasilense*: their associative N_2-fixation and yield response of rice to root inoculation in calcareous soil 1

N. Wakao, H. Tachibana, Y. Tanaka, Y. Sakurai, and H. Shiota: Morphological and physiological characteristics of streamers in acid mine drainage water from a pyritic mine 17

T. Naganuma, Y. Uzuka, and K. Tanaka: Physiological factors affecting total cell number and lipid content of the yeast, *Lipomyces starkeyi* 29

S. P. Singh and V. Yadava: Cadmium uptake in *Anacystis nidulans*: effect of modifying factors 39

T. Nakase and M. Suzuki: Taxonomic studies on *Debaryomyces hansenii* (Zopf) Lodder et Kreger-van Rij and related species. I. Chemotaxonomic investigations 49

T. Nakase and M. Suzuki: Taxonomic studies on *De baryomyces hansenii* (Zopf) Lodder et Kreger-van Rij and related species. II. Practical discrimination and nomenclature.. 71

J. B. Barford: Analysis of the variation of cell length during the cell cycle of *Schizosaccharomyces pombe* using an asynchronous chemostat culture 87

M. Oda, R. Nomi, and Y. Kobayashi: Efficient expression of *Bacillus subtilis* sporulation gene in *Escherichia coli* and purification of the gene product 93

Short Communication

W. L. Baker and P. J. Havlicek: Nomographs for fluorimetric assay of penicillin acylase activity against α-aminobenzylpenicillin derivatives 107

K. Saito, N. Hara, and T. Suto: Production of an antiserum which effectively picks up *Trichosporon beigelii* by using its extract obtained mechanically or autolysate..... 111

Number 2, April 1985

Y. Kamei, T. Sakata, and D. Kakimoto: Microflora in the alimentary tract of *Tilapia*: characterization and distribution of anaerobic bacteria 115

T.-L. Huang, B.-S. Fang, and H.-Y. Fang: Oxidation of secondary alcohols to methyl ketones by immobilized yeast cells 125

W. R. Aimutis, E. T. Kornegay, and W. N. Eigel: In vitro antagonism of *Escherichia coli* by piglet small intestinal bacteria isolated by selective enrichment in media containing sow colostrum, piglet feed or brain heart infusion 135

R. Hattori and T. Hattori: Adsorptive phenomena involving bacterial cells and an anion exchange resin 147

D. Kumar, M. Jha, and H. D. Kumar: Copper toxicity in the fresh water cyanobacterium *Nostoc linckia* 165

M. Ohmori, T. Saino, and K. Ohmori: Occurrence of glutamine-2-oxoacid transaminase activity in the blue-green alga *Anabaena cylindrica* 171

K. Toda and H. Ohtake: Comparative study on performance of biofilm reactors for waste treatment 177

Short Communications

S. OGATA, S. YAMADA, and S. HAYASHIDA: Genetic recombination in *Streptomyces azureus* by protoplast fusion and high production of thiostrepton by the recombinants 187
S. OGATA, S. YAMADA, and S. HAYASHIDA: Stimulation and inhibition of thiostrepton production in *Streptomyces azureus* by 5-amino-4-imidazole carboxamide (AICA)..... 193

Number 3, June 1985

K. SATO: Effect of a pesticide, pentachlorophenol (PCP) on soil microflora II. Effect of PCP on bacterial flora in soil percolated with glycine or water 197
R. RAI: Manganese-resistant mutants of *Azospirillum brasilense*: their growth and relative efficiency in associative nitrogen fixation with cheena (*Panicum miliaceum*) 211
R. K. OWUSU and A. FINCH: Study of immobilized yeast, *Saccharomyces cerevisiae*, using flow microcalorimetry 221
C. C. HO and M. L. CHYE: Construction of a genetic map of chromosomal auxotrophic markers in *Streptomyces peucetius* var. *caesius* 231
T. URAKAMI, J. TAMAOKA, and K. KOMAGATA: DNA base composition and DNA-DNA homologies of methanol-utilizing bacteria 243
T. EZAKI and E. YABUUCHI: Oligopeptidase activity of gram-positive anaerobic cocci used for rapid identification 255
M. TAKAGI, S. KAWAI, Y. TAKATA, N. TANAKA, M. SUNAIRI, M. MIYAZAKI, and K. YANO: Induction of cycloheximide resistance in *Candida maltosa* by modifying the ribosomes.. 267
D. P. SINGH: Cu^{2+} transport in the unicellular cyanobacterium *Anacystis nidulans*..... 277
A. HAYASHI, H. TAUCHI, and S. HINO: Production of carbon monoxide by bacteria of the genera *Proteus* and *Morganella*..... 285

Short Communication

N. NIKAIDO, T. NAGANUMA, K. ITO, K. IZAKI, and H. TAKAHASHI: Cloning of a pectate lyase gene from *Erwinia carotovora* and its expression in *Escherichia coli*..... 293

Number 4, August 1985

P. BAJPAI and A. MARGARITIS: Immobilization of *Kluyveromyces marxianus* cells with inulinase in agar 297
P. BAJPAI and A. MARGARITIS: Production of high fructose syrup from Jerusalem artichoke tubers using *Kluyveromyces marxianus* cells immobilized in agar gel 305
M. YAMAZAKI and S. GOTO: An Electrophoretic comparison of enzymes in the genera *Lipomyces* and *Myxozyma*..... 313
B. MARUO and T. TOJO: Stepwise enhancement of productivity of thermostable amylase in *Bacillus licheniformis* by a series of mutations 323
L. C. RAI and M. RAIZADA: Effect of nickel and silver ions on survival, growth, carbon fixation and nitrogenase activity in *Nostoc muscorum*: regulation of toxicity by EDTA and calcium 329
S. SWAMY, I. UNO, and T. ISHIKAWA: Regulation of cyclic AMP-dependent phosphorylation of cellular proteins by the incompatibility factors in *Coprinus cinereus*..... 339
J. AKETAGAWA, K. KOJO, K. KOBAYASHI, and M. ISHIMOTO: Comparative immunological studies of sulfite reductases, hydrogenases, and somatic antigens from strains of the genus *Desulfovibrio* 347

K. Ueki, T. Yoshida and M. Umezu: Additional delay in sporulation in *Saccharomyces cerevisiae* caused by protein synthes inhibitors: evidence for synthesis of labile protein controlling sporulation 359
N. Wakao, I. Tanimura, and H. Shiota: An electron microscopic examination of streamers in acid mine drainage water from a pyritic mine 371
S. Kato, T. Urakami, and K. Komagata: Quinone systems and cellular fatty acid composition in species of *Rhodospirillaceae* genera 381

Short Communication

I. Yamashita, M. Nakamura, and S. Fukui: Diversity of molecular structures in the yeast extracellular glucoamylases 399

Number 5, October 1985

G. C. Rollan, M. C. M. de Nadra, A. A. Pesce de Ruiz Holgado, and G. Oliver: Aspartate metabolism in *Lactobacillus murinus* CNRS 313. I. Aspartase 403
K. Tokuoka, T. Ishitani, S. Goto, and K. Komagata: Identification of yeasts isolated from high-sugar foods 411
Y. Mizukami and H. Hirokawa: Evidence that *Bacillus* phage M2 is derived from Nf by deletion in a particular region of the genome 429
R. Rokka, N. Futamura, and A. Ishida: Role of putrescine oxidase in the generation of hydrogen peroxide by *Micrococcus luteus* 435
M. V. Hao and K. Komagata: A new species of *Planococcus*, *P. kocurii* isolated from fish, frozen foods, and fish curing brine 441
T. Nakase and M. Suzuki: Ballistospore-forming yeasts found on the surface of the Japanese rice plant, *Oryza sativa* L. 457
E. Entani, S. Ohmori, H. Masai, and K. Suzuki: *Acetobacter polyoxogenes* sp. nov., a new species of an acetic acid bacterium useful for producing vinegar with high acidity..... 475

Short Communication

Y. Yamada and T. Nakase: *Waltomyces*, a new ascosporogenous yeast genus for the Q_{10}-equipped, slime-producing organisms whose asexual reproduction is by multilateral budding and whose ascospores have smooth surfaces 491

Number 6, December 1985

A. Surrey, R. W. Attwell, and T. Cross: Cell wall acyl type in some strains of *Streptoverticillium* and *Streptomyces* 493
A. Patterson, C. Stevens, R. M. Cody, and R. T. Gudauskas: Differential amino acid utilization by spiroplasmas and the effect on growth kinetics 499
T. Nakase and M. Suzuki: *Candida tsuchiyae* sp. nov., isolated from moss collected in Japan..... 507
R. Bernier, Jr. and M. Desrochers: Molecular cloning of a β-xylosidase gene from *Bacillus subtilis* 513
J. Sugiyama, M. Fukagawa, S.-W. Chiu, and K. Komagata: Cellular carbohydrate composition, DNA base composition, ubiquinone system, and diazonium blue B color test in the genera *Rhodosporidium*, *Leucosporidium*, *Rhodotorula* and related basidiomycetous yeast 519
J. Hashimoto and Y. Machida: The sequence in the potato spindle tuber viroid required for its cDNA to be infective: a putative processing site in viroid replication..... 551

Short Communication

M. E. Farias, A. M. Strasser de Saad, A. A. Pesce de Ruz Holgado, and G. Oliver: Evidence for the presence of L-serine dehydratase in *Lactobacillus murinus* 563
J. Takagi, H. Chiura, N. Kagiyama, and R. Sakaguchi: The behavior of the bacteriophage SPO1 in adsorbing to *Bacillus subtilis* 569
N. Nikaido, K. Ito, K. Izaki, and H. Takahashi: DNA sequence of the promoter and NH_2-terminal regions of the pectate lyase I gene from *Erwinia carotovora* 573
